

BARGAINING BULLETIN #6

Bell Technical Solutions

Sisters, Brothers and Siblings,

We have made significant progress in addressing several key priority areas; however, there are still critical topics that require further negotiation, particularly concerning pension, benefits and wages.

Negotiations will resume in Montreal during the first week of May, and we are dedicated to reaching a tentative agreement by the end of that week.

If we do not reach an agreement by May 8th of that week we will take any action deemed necessary to advance your claims at the bargaining table.

We will NOT accept anything less than what you rightfully deserve, nor will we yield to pressure to sign an agreement that does not meet your expectations.

Thank you for your unwavering patience and support; it is invaluable. Your respective committees will keep you informed of all upcoming developments.

Together, Quebec and Ontario stand strong!

In solidarity,

Your bargaining committee,

Ontario
