

# NOVA SCOTIA HEALTH LAUNCHES THE NEW EMPLOYEE CAREER ADVICE PROGRAM

Nova Scotia Health is excited to announce a newly formed Employee Career Advice Team. This brand-new program is here to support our employees on their continued professional development and career transitions within Nova Scotia Health. Our team comes together with over 30 years of management, Human Relations, coaching and counselling backgrounds. Whether you are looking for a career transition, a job change, or simply feeling stuck, we want to talk to you. Our goal is to retain and support our employees in their career growth over their lifetime and career here at Nova Scotia Health. Our advisors will work with interested employees to develop a career plan specifically tailored for their continued success within our organization.

## WHAT WE OFFER:

## what could this mean for you?

- 1. Equity:**  
We strive to ensure that every employee can bring their full selves to our organization and that their concerns will be addressed. When employees express their barriers and challenges to us, we will seek to eliminate barriers and advocate for change.
- 2. Person-centered service:**  
We strive to empower our employees by creating a safe space for them to grow and design their own career journey.
- 3. Opportunities to identify what is important to you:**  
We're continually seeking to support the dreams and goals of employees by actively listening and supporting them to notice what they're good at, what they care about and what kinds of problems they want to solve.

## What is important to us?

Our main priority is to support employees in navigating their career journeys. The Employee Career Advice team is transforming the values that guide our work to include equity, person-centred work and supporting employees to cultivate a sense of purpose. These are things that we are working towards. It is important to us to listen to and incorporate the voices of employees in our work. We are working on this by involving employees in this process, through feedback and collaborative work.
