

Attention CTS Shuttle Members

Safety Barriers on Shuttle Buses

Sisters and Brothers,

Unifor considers the safety and well-being of all our CTS members to be our top priority. Safety Barriers on Shuttle buses is one of several tools that can help prevent and minimize violence against our CTS members/operators.

During the December Community Shuttle Sign Up at PTC, HTC and STC, Unifor Executives are asking for your participation in a Health and Safety survey.

The purpose of the survey is to gather member feedback on the current barriers we have on our coaches. The survey and the data gathered will be used in further discussions with management regarding the future of barriers on all shuttle buses.

The survey will be online from December 14th to 27th, 2020.

The survey is password protected to ensure only Community Shuttle members are completing the survey. The password will be provided during the week of sign-up starting December 14, 2020.
